Background

Skill competitions showcase and inspire excellence in skills. Competitions provide an opportunity to see a skilled profession in action and inspire options of a vocational career. The motivational aspect of skill competitions makes it an excellent platform for advocacy. Across the world, skill competitions are held at local, regional, national and international levels.

National focus and importance have been accorded to skills by Ministry of Skill Development and Entrepreneurship, Government of India. With several inherent benefits of conducting skill competitions, a structured approach with active participation of States has been envisaged under the State Skills competition program.

It is only through publicity, screening, selections, training and competitions across all States that best talent can emerge in a systematic manner. Such talent can then represent the country at different competitions to highlight India's goal to be the skills capital of the world.

National level skill competition, known as India Skills – is being held every alternate year. The participants of India Skills will emerge from winners of State Level and subsequently Regional Level competitions. India Skills, the national competition leading to WorldSkills and other international competitions, is based on WorldSkills format and the District and State level competitions is also expected to follow the same format and norms.

NSDC works with State Governments as knowledge partner to assist state skill missions to hold skill competitions in the WorldSkills format.
